4th - 10th September 2017,
Kiten, Bulgaria

Program

Summer School Bioethics in Context IV

Philosophy and Life Sciences in Dialogue.
Theoretical and Practical Questions

4th - 10th September 2017, Kiten, Bulgaria

The Faculty of Philosophy at Sofia University "St. Kliment Ohridski" and the Department of Practical Philosophy (Ethics, Law and Economy) of the Institute of Philosophy, FernUniversität in Hagen, in cooperation with three more partner universities, organize from 4th to 10th September 2017 the International Summer School Bioethics in Context IV: Philosophy and Life Sciences in Dialogue. Theoretical and Practical Questions. The summer school will take place in the Guest House of the Sofia University in Kiten, Bulgaria.

The summer school 2017 is dedicated to the dialogue between philosophy and life sciences and the complex theoretical and practical questions raised by the recent development of life sciences and technologies. The philosophical reflection in the field of bioethics is engaged with a deeper understanding of life and an exploration of scientific knowledge and its options of implementation in regard to the ethical norms, human goals, and inherent risks for individual and social life. We will discuss on methodological level different ways of thinking and arguments as regards newly obtained technological knowledge.
