

At PwC, the future
looks a lot like you.

Finance Professional Programme

With offices in 156 countries and more than 295,000 people, we are among the leading professional services networks in the world. We help organizations and individuals create the value they're looking for by building relationships and delivering high quality Assurance, Tax and Advisory services.

We provide a wide range of financial services to our clients and help them solve their important problems.

Now is an exciting time to join us in our journey as our business is evolving. Together we explore new technologies and methods, we inspire clients and individuals, we reimagine the possible.

Upon joining our Finance Professional Programme - together with your class of around 20 professionals, you will embark onto a three-week initial training - learning our technology, our methods and what we do. You will be assigned a "Coach and a "Buddy" who will be there to answer all your questions and help you to integrate within our firm. You will have senior Finance professionals in your projects who will continuously provide coaching to enable you to fulfill your potential within PwC.

What to expect:

You will be enrolled into a course to obtain the internationally recognized ACCA (Professional Qualification), which will enhance your career development. Of course, all costs are covered by us, and sufficient study-leave time will be made available.

You will have the opportunity to gain knowledge in various industries (banking, insurance, telecoms, pharma, automotive, manufacturing, services), understand our client's processes and business and attend discussions with finance leaders to deliver exceptional services.

As you will be working with some of the best professionals in the financial services industry, with a world-class know-how, you will gain impeccable knowledge in Financial Reporting and Management.

You will be allocated into different teams to work on various projects being responsible for a wide range of clients and as you gain knowledge and experience you will move onto a senior role where you will be responsible for the projects yourself.

You will be performing financial analysis and be discovering the story behind the numbers that are present in the Financial Information of our clients.

What do we offer:

- Access to global best practices and professional know-how in an international setting
- Challenging and interesting projects
- Work in regional and global teams
- Chance to work as a part of a positive and experienced team
- Central office location and opportunity to combine office hours with work from home.
- Comprehensive remuneration and employee benefit programme including additional medical insurance, food vouchers, sport card, home office allowance, fringe benefit).
- We appreciate great performance and evaluate it bi-annually and upon meeting expectations you will advance through our ranks, get salary increase and bonuses.

What we are looking for:

If you are a recent graduate, just finishing-off your education and want a career in Financial services and you are agile in your thinking, adapt quickly to the changing world, excited about working smarter through technology, willing to work hard and care about making a difference and deliver value, passionate about financial analysis and discovering the story behind the numbers, we would love to hear from you.

Help organizations build trust and deliver sustained outcomes. Join our passionate community of solvers by applying with your CV in English.

Only short-listed candidates will be contacted
