

# Data Strategy Services

INDEAVR is a growing company that offers career opportunities in a dynamic industry, encourages professional growth, and values associate contributions. Choosing an employer can be one of the most important decisions you make in life.

Be Long-Term Smart. Choose INDEAVR.

We are currently looking for a **Business Analyst** for our **Data Strategy Services** department. We are looking for a curious and willing to tackle hard projects BA, who is not afraid to work with complex business requirements, large amounts of data and challenging deliverables that push the boundaries of existing technologies. The ideal candidate for our team will have experience with end-to-end BI or application delivery projects and will be willing to act as both BA and PM.

► Your responsibilities will include:

- Work with architects, project stakeholders and other business analysts to develop requirements and user stories for reports or applications
- Collaborate with developers, BI developers, data engineers, QAs to produce outstanding BI solutions or applications
- Coordinate activities with client's project team in order to create clarity and verify requirements from different perspectives
- Collaborate with remote and local team members and coordinate technical aspects of operations such as analyzing and solving problems in the production environment, data quality, ETL, etc.
- Adhere to development standards, guidelines, and best practices
- Apply quantitative and qualitative research and information-gathering techniques
- Participate in project management, test management including executing test scripts in test environment and create the required development and support documentation.
- Reviewing and approving newly developed functionalities before release to production
- Visualizing and presenting ideas, solutions and data professionally and translating them into the appropriate deliverables
- Thriving in multinational cross-cultural environment

► What we look for:

- 1+ years of professional experience as a Business Analyst or similar role
- Creative thinking, talent and enthusiasm
- Good process and data analytical skills
- Strong interpersonal skills, collaborative problem-solving skills, ability to listen to and understand needs across diverse stakeholders
- Excellent written and verbal communication, both in English and Bulgarian; speak knowledgeably with members of both the business and technology teams
- Strong interest in working with technical resources – learning and supporting them in any capacity as part of the team– learning the solution and understanding business needs
- Experience with Agile methodology
- Professional appearance and business behavior

▶ What we will value but NOT insist on:

- Official certification in BA, Project Management or ITIL
- Knowledge of Relational Databases
- Any experience with BI tools and report building (Power BI, Qlik Sense, Tableau or other)

▶ INDEAVR will provide you with:

- Busy, dynamic and involving work day
- Experience and performance-based remuneration package
- Direct financial and mentorship support for professional and personal development
- Opportunity to work within a culture that stimulates knowledge and experience sharing

INDEAVR is committed to creating a diverse environment and is proud to be an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, gender, national origin, and age.

The above statements are intended to describe the general nature and level of work being performed by people assigned to this classification. They are not to be construed as an exhaustive list of all job duties performed by the personnel so classified.
