

## STATEMENT

Subject: competition for the academic position "Associate Professor" in the professional field 7.3 "Pharmacy", Scientific specialty "Social Medicine and Organization of Health Care and Pharmacy" for the needs of the Faculty of Chemistry and Pharmacy, announced in SG no. 21 / 13.03.2020

by Prof. Zlatka Dimitrova Dimitrova, MPH, PhD, D.Sci, Faculty of Chemistry and Pharmacy, Sofia University "St. Kliment Ohridski", a member of the Scientific Jury, appointed by order № RD 38-156 / 02.04.2020 of the Rector of Sofia University "St. Kliment Ohridski"

The only candidate for the announced competition is Chief Assistant Professor Kalina Gocheva Andreevska, Ph.D. The scientific jury in its meeting of 23.07.2020 decided me to present a statement on the announced competition. On 28.07.2020 the Scientific Jury unanimously agreed that the provided scientific production for participation in the competition by the candidate Chief Assistant Professor Kalina Gocheva Andreevska, PhD, meets the minimum national requirements and the additional requirements of Sofia University "St. Kliment Ohridski" and admitted her to scientific evaluation. This statement has been prepared in accordance with the Law on the Development of the Academic Staff in the Republic of Bulgaria and the Rules for Implementation of the Law on the Development of the Academic Staff in the Republic of Bulgaria and the Rules and Conditions for Acquisition of Scientific Degrees and Academic Positions at Sofia University "St. Kliment Ohridski".

I. Career development of the candidate: chief assistant professor Kalina Gocheva Andreevska, PhD graduated with a master's degree in pharmacy in 2001 at the Faculty of Pharmacy of the Medical University - Sofia. After graduation, she began working in international pharmaceutical companies as a medical representative and product manager at GlaxoSmithKline and Boeringer Ingelheim. During the period 2013 - 2018 she held the academic positions of "Assistant Professor" and "Chief Assistant Professor" at the Medical University of Plovdiv, Faculty of Pharmacy, Department of Pharmaceutical Sciences. In 2010 she developed a doctoral dissertation at the Medical University of Plovdiv, Faculty of Pharmacy on "Medical- social and economic studies of drug use in patients with chronic obstructive pulmonary disease (COPD)" and successfully defended it before Specialized Scientific Council on Hygiene, Occupational Diseases and Social medicine at the Higher Attestation Commission and received the educational and scientific degree "Doctor". She acquired the specialty Organization and economics of distribution and pharmacy practice in 2007. Since 2018 she has held the academic position of "Chief Assistant Professor" in the Educational and Scientific Laboratory "Social Pharmacy" at the Department of Physical Chemistry at the Faculty of Chemistry and Pharmacy, Sofia University "St. Kliment Ohridski". There is a common scientific-teaching experience of 24 years and 6 months, of which 2 years and 4 months in the Faculty of Chemistry and Pharmacy at Sofia University "St. Kliment Ohridski".

II. Research activity: The overall scientific production of Chief Assistant Professor Kalina Gocheva Andreevska, PhD includes 141 papers, of which 1 collective monograph, two chapters in a monograph, 23 scientific publications in referenced and indexed in world-famous databases, of which 11 with impact factor and 1 habilitation thesis / independent

monograph. The remaining 100 papers have been published in non-peer-reviewed journals and reports from scientific conferences, 10 textbooks; participation in two scientific projects and twice lecturer at scientific events. To participate in the competition, the candidate presents 133 scientific papers, of which two chapters in a monograph, 21 publications and reports published in scientific journals, referenced and indexed in world-famous databases of scientific information, 1 collective monograph on clinical pharmaceutical practice in the field of pediatrics, 1 habilitation thesis / independent monograph in the field of pharmaceutical care/ and 94 publications and reports published in non-peer-reviewed journals with scientific review or published in edited collective volumes, one of which is in print, 10 textbooks; participation in two scientific projects and twice lecturer at scientific events. Of all scientifically evaluated publications, 11 have an impact factor. The main topic of the publications is medical and social, it falls entirely within the scope of the scientific specialty of the announced competition and confirms the reference for the author's contributions. The main part of the research is oriented in the following directions: Pharmacotherapy of socially significant diseases, clinical pharmacy and pharmaceutical care, Drug safety; History of pharmacy, National Drug Policy, Drug regulation, Good practices in the pharmaceutical sector, Pharmaco economics and evaluation of health technologies; and others. According to the recommended requirements of the Faculty of Chemistry and Pharmacy of Sofia University, Chief Assistant Professor Kalina Gocheva Andreevska, PhD, presented for participation in the competition habilitation work / independent monograph on the topic: "Pharmaceutical care in pharmaceutical practice". The research of Chief Assistant professor Kalina Gocheva Andreevska, PhD have an indisputable contribution in various fields of social pharmacy, as evidenced by the presented reference for citations, including 29 citations on the scientific production of the candidate. In my opinion, it has focused on the new scientific directions of social pharmacy, which are rapidly being developed and implemented in pharmacy services worldwide and in Europe and thus will support the practical implementation of specialists in clinical pharmacy in our country, where it is seriously observed. lagging behind developed countries. I accept the author's reference for the contributions of her scientific research in scientific-theoretical and applied aspects.

Among the submitted documents there is evidence of the active and in-depth work of the candidate with students in the Faculty of Chemistry and Pharmacy. A total of 5 publications are co-authored with students, and 2 are published in scientific journals, referenced and indexed in world-renowned scientific databases. Participations in scientific forums with developments involving students are 9, and 14 in upcoming ones.

Data for participation in 2 scientific projects are presented: "Project: Pharmaco-social, pharmacotechnological and pharmaco-economic study of the treatment of COPD. Contract 36/2013, Medical University - Sofia, " and Project " Study of the system for reporting adverse drug reactions among pharmacists and patients in Bulgaria 2017. " under a contract with the University Fund for Research of Sofia University St. Kliment Ohridski, with the participation of pharmacy students.

If not less than 400 points are required, the presented scientific production by Chief Assistant Professor Kalina Gocheva Andreevska, PhD corresponds to 1596.86 points.

III. Teaching activity: Chief Assistant Professor Kalina Gocheva Andreevska, Ph.D. has long passed the initial stages of her academic career, has a well-established name and has proven

itself among the teaching staff and students in the Faculties of pharmacy in our country as an erudite and highly motivated, highly ethical lecturer and researcher and participates as a co-author in group developments with lecturers from all faculties of pharmacy. Since her appointment at Sofia University "St. Kliment Ohridski, Faculty of Chemistry and Pharmacy, Ch. Assistant Professor Kalina Gocheva Andreevska, PhD actively participates in the teaching work of the Faculty, having conducted exercises and seminars in all special medical and social disciplines for students in the master's degree "Pharmacy" of Faculty of Chemistry and Pharmacy with an average annual workload above the norm, as is seen from the applied document. The main employment is in the disciplines "Social Pharmacy and Pharmaceutical Legislation", "History of Pharmacy" and "Pharmaceutical Care", but also participates in the development of curricula in English for foreign language training for pharmacy students. The preparation and participation in teaching English raises the national and international recognition of the laboratory, faculty and university. She is a co-author of 10 textbooks, 1 in English.

IV. Administrative activity: Ch. Assistant Professor Kalina Gocheva Andreevska, Ph.D. has diverse administrative and professional experience and appearances. She is a member of the control commission of Bulgarian Association for Drug Information, participates in the management board of Balkan Medical Union for Bulgaria, has worked as an expert in health technology assessment at the National Center for Public Health and Analysis.

V. Conclusion: Based on the above analysis, I give my positive assessment of the teaching and research of Chief Assistant Professor Kalina Gocheva Andreevska, Ph.D. I believe that the candidate in the competition is a well-established lecturer and researcher and far exceeds the minimum national requirements of the Law on the Development of Academic Staff in the Republic of Bulgaria, the Rules for the Implementation of the Law on the Development of the Academic Staff in the Republic of Bulgaria and the Rules for the Terms and Conditions for Acquisition of Academic Degrees and Occupation of Academic Positions at Sofia University "St. Kliment Ohridski".

I confidently recommend to the esteemed Scientific Jury and to the members of the Scientific Faculty Council of the Faculty of Chemistry and Pharmacy at Sofia University "St. Kliment Ohridski" to vote for the award of the academic position "Associate Professor" to Chief Assistant Professor Kalina Gocheva Andreevska, PhD in professional direction 7.3 "Pharmacy" and Scientific specialty "Social medicine and organization of health care and pharmacy", for which I will vote "YES".
