National Geographic Society – Past, Present and Future *Grants Seminar*

Dr Claire McNulty, Executive Director of Europe and the Middle East, will give an overview of the work of the non-profit National Geographic Society, including information about the [Grants program](#) with information about how to apply for a grant and tips on successful applications.

The presentation will cover the five focus areas of National Geographic Society: Oceans, Land, Wildlife, Human History and Culture, and Human Ingenuity, and give examples of National Geographic Explorers working in these areas. The presentation will include a Question and Answer session.

If you would like more information about National Geographic Grants please fill out the form [here](#).
