SCHOLARSHIP
Summer School

WIN A FULL SCHOLARSHIP FOR LONDON SCHOOL OF ECONOMICS

The Aleksander Foundation announces a competition for one full scholarship for Money and Banking (1-19 August) summer course

The Application

First round - Documents

CV of maximum 2 pages

Essay (1000 words) on the topic of: What can the UK do to improve its competitiveness as a pre-eminent financial centre?

London (and the UK more broadly) have historically played a leading role in global finance and related professional services (e.g. accountancy, management consulting, legal). This has been aided by a lot of factors - e.g. trade flows and strengths in insurance, but also foundational things such as language, political stability and time zone. However in the new dynamic and connected world, a lot of activity is shifting to newer markets and centres like Singapore or Hong Kong are becoming more and more relevant, while New York is continuing to strengthen its competitive advantages. So a critical question facing London and the UK, is what can be done to ensure they remain a centre for cutting edge financial capabilities.

Send to: lse@aleksanderfoundation.org
