

## One of the biggest speciality pharmaceutical company is hiring!

Ever wondered how the Pharma industry works and what the industry with constant growth in the past decades looks like? What it is like to work for a company that provides real value in pharmaceuticals in their everyday activity? Actavis, the global speciality pharmaceutical company with annual revenue of 2 bln EUR in Europe, is looking for:

### Interns at the Supply Chain Department

#### Role Description Summary

The main purpose of the intern is to manage end-to-end purchasing process from ordering to delivering. Create a process, clear every issue that may arise in this end-to-end process, detect any bottlenecks and suggest solutions for clearing-up. Improvement suggestions for system alignment and process improvements are always welcome.

#### Description of KEY responsibilities:

- Keep track of all open orders of key suppliers and issue purchase orders in SAP as demanded by the market.
- Review and update the main database for order tracking and suggest improvements and optimization.
- Align different supply-chain systems.

#### Education and skills required:

- ☉ Current student or recent graduate willing to develop in the field of Supply Chain Management;
- ☉ English proficiency;
- ☉ Good knowledge of MS Office, in particular MS Excel;
- ☉ Basic understanding of accounting principles and supply chain terminology;
- ☉ Flexible, open-minded, passionate and fast learner.

**Duration:** 3 months with the possibility of extension based on the performance and availability of the intern.

This is your chance to get some practical experience in the corporate world, earn your sweet fortune, spend an amazing summer doing something fantastic for your future career, and have a chance to be part of a young, growing, ambitious and talented team that will rock the pharma world.

Do not hesitate, **ACT NOW!**
