

Assessment and Management of Sustainable Innovation

When: 01 June 2017, 10:00-13:00h

Where: Sofia University, Faculty of economics and business administration, block 3, room 420

Dear colleagues,

The **Faculty of Economics and Business Administration**, in cooperation with **Applied Research and Communications Fund** and **TechnoLogica EAD**, are pleased to invite you to a knowledge-sharing seminar focused on the use of a common framework for the assessment and management of sustainable innovation (CASI-F). The framework is developed in the CASI project supported by 7th Framework Programme for Research and Innovation of the European Union. CASI-F is a holistic tool to support forward-looking decision-making at strategic, tactical and operational levels for government, business, civil society and research and education actors.

The main topics of the seminar are:

- Understanding sustainable innovation and its role in innovation and management systems.
- CASI-F: A comprehensive set of tools to assess and manage sustainable innovations.
- Understand how to use the CASI tutorial to learn about the applications of CASI-F.
- Questions and discussions about the relevance of CASI-F to innovators, scientific researchers and civil society actors.

The seminar is **open for all students and university researchers** who are interested in innovation, sustainability, environmental decision-making and the introduction of new tools for learning and teaching sustainable innovation. All presentations and discussions will be held in English. The attendance of fellow international students and faculty is highly encouraged and welcome.

Bonus: Those who register and attend the seminar will:

- Receive a certificate of attendance;
- Will be invited to visit one of the most innovative Bulgarian IT companies – TechnoLogica.
