

At PwC, the future  
looks a lot like you.

## ESG/Sustainability Consultant

We are seeking a highly motivated person to join our growing ESG/Sustainability team as a consultant. We believe that sustainability is just as important for companies as the possibility to generate cash flows and that companies are better prepared for the future with a well-incorporated ESG strategy. We are passionate about helping clients create value for themselves and their stakeholders through integrating cost-effective ESG practices into their operations and through reporting their progress on ESG topics. As an ESG/Sustainability consultant, you will work with a wide range of clients to assess their environmental, social, and governance (ESG) performance, develop sustainable strategies, and implement best practices.

### Responsibilities:

- Conduct ESG assessments and develop ESG strategies for clients across a variety of sectors
- Provide advice on ESG regulations and reporting requirements
- Assist clients with ESG reporting and disclosure, including preparing sustainability report and responding to sustainability surveys
- Develop and deliver ESG training programs for clients
- Stay up-to-date with ESG trends, standards, and best practices

### Qualifications:

- University degree related to Sustainability or Environmental Studies, or a degree in Business Administration, Economics, Finance, Law or related disciplines
- You are familiar with or are highly interested in ESG topics
- Strong analytical, communication, presentation and report writing skills
- Proficiency in English
- Proficiency in French is a big advantage
- You have a good understanding of key sustainability issues and trends and how they link to business value
- Ability to work independently, manage multiple projects, and meet deadlines

### What we offer:

- Company training and excellent opportunities for professional development in a leading consulting company
- Access to global best practices and professional know-how in an international setting
- A "Coach" and a "Buddy" programmes to help you integrate, develop and perform well
- Professional, positive and team-oriented working environment
- Comprehensive remuneration and social package
- Central office location
