

Feedback on the education in the
M. Sc. programme Computational Chemistry
 Faculty of Chemistry and Pharmacy, Sofia University “St. Kliment Ohridski”

<i>Student:</i>	Deyan Raychev
<i>Year of graduation:</i>	2014
<i>Place (University, PhD program) of continued education, if applicable:</i>	Technical University Dresden (Germany), Boosting functional design of ambipolar organic semiconductors for advanced flexible electronics
<i>Present occupation (Place, position, and main responsibilities):</i>	PhD student, Leibniz Institute of Polymer Research Dresden (Germany)
<i>The education at the Faculty of Chemistry and Pharmacy contributed to:</i>	The extent of your education depends on your personal motivation and interests.
<i>The education in the M. Sc. program Computational Chemistry contributed to:</i>	If you follow your heart, everything will be in place.
<i>Critical notes or recommendations to the education in the M. Sc. program:</i>	Programming skills are vital.
<i>Your wishes to the current and future students:</i>	Follow your dreams without looking back.
<i>Please enclose a recent photo. 😊</i>
