

Feedback on the education in the  
**M. Sc. programme Computational Chemistry**  
 Faculty of Chemistry and Pharmacy, Sofia University “St. Kliment Ohridski”

<i>Student:</i>	Rossen Monov
<i>Year of graduation:</i>	2016
<i>Place (University, PhD program) of continued education, if applicable:</i>	Not at present.
<i>Present occupation (Place, position, and main responsibilities):</i>	Q2 Solutions – Laboratory for clinical and bioanalytical trials. Preparation, verification, and editing of documents related to client orders and enquiries regarding the development and/or conduction of bioanalytical trials. Participation into strategic meetings with clients to clarify their requirements for a specific bioanalytical method.
<i>The education at the Faculty of Chemistry and Pharmacy contributed to:</i>	The time at the Faculty taught me of discipline, accuracy and respect of the profession.
<i>The education in the M. Sc. program Computational Chemistry contributed to:</i>	The master studies helped me broaden my knowledge in Theoretical Chemistry and improve my skills in using quantum chemical methods to investigate various chemical systems.
<i>Critical notes or recommendations to the education in the M. Sc. program:</i>	No
<i>Your wishes to the current and future students:</i>	Satisfy your curiosity! There are so many undisclosed worlds waiting to be unveiled with the methods of quantum chemistry.
<i>Please enclose a recent photo. 😊</i>
