

Feedback on the education in the
M. Sc. programme Computational Chemistry
 Faculty of Chemistry and Pharmacy, Sofia University “St. Kliment Ohridski”

<i>Student:</i>	Alexander Kantardjiev
<i>Year of graduation:</i>	2002-2004 (no thesis though)
<i>Place (University, PhD program) of continued education, if applicable:</i>	Bulgarian Academy of Sciences - PhD (Biophysical Chemistry Lab)
<i>Present occupation (Place, position, and main responsibilities):</i>	Bulgarian Academy of Sciences, NMR Lab, Assistant
<i>The education at the Faculty of Chemistry and Pharmacy contributed to:</i>	
<i>The education in the M. Sc. program Computational Chemistry contributed to:</i>	Fast and steady focus on a thorough agenda covering classical and modern computational chemistry methods.
<i>Critical notes or recommendations to the education in the M. Sc. program:</i>	
<i>Your wishes to the current and future students:</i>	Leave aside formal ambition for the degree. Just entangle your primary pure interests with the maximum potential of the program and reach the ultimum during the period.
<i>Please enclose a recent photo. ☺</i>
